Rainy Weather No Excuse for Accidents, Claim

Rainy weather does not cause traffic accidents, J. T. Blalock, president, Greater Los Angeles Safety Council, said today.

"It is a weak excuse," Blalock said, "to blame the weather for accidents that are caused by motorists who fail to adjust their driving to wet weather conditions."

It is true, he said, that rain creates additional traffic hazards but experienced drivers allow for these increased dangers.

The Safety Council president offered these tips for wet weather driving:

Keep your windshield clean and be sure wipers are in good working order. Remember that stopping distances are greatly increased on wet streets. Keep plenty of distance between your car and the car ahead. Smooth tires are dangerous at any time, but even more so on wet streets. Steer clear of the white line—its slippery when wet. To help keep brakes dry, apply them gently while driving through deep water. Test brakes after driving through flooded areas. You can dry wet brakes by applying the brake and slowly accelerating at the same time.

"If you have a rainy day mishap," Blalock said, "don't blame the weather. You can't regulate the weather, but you can control your driving."

The Dentist Says:
 By DR. ERNEST J. TARR

Use Old Teeth for New Plates

"I have worn dentures for years. Because of gum shrinkage they don't fit any more. I like the way the teeth look; so can they be used in a new plate?"—asks Mrs. J. K. of Torrance.

Yes, the old teeth from your denture can be used in a new plate and can be used in such way as to save you one-half the cost of a new plate.

The technique is this: A brand new impression is taken of the mouth and the old teeth are cut off the old plate and re-set exactly as they were onto the new plate. This works out wonderfully well where a new bite is not required. Completely brand new plastic is used throughout and the finished product is a brand new denture except for the fact that the teeth from the former plate are used.

DENTAL CARE AVAILABLE ON CREDIT

"I need quite a bit of dental work done, but cannot afford to pay right now. Do you have a plan whereby I can get my work done now and pay for it later?"—writes Mrs. R. D. of Harbor City.

Yes, my office is set up to give credit to all who desire it. When you first come into the office, I do a complete dental examination on you. Then I give you an exact estimate of what the work will cost. Once we know the fee, we can arrange for you to buy on easy monthly terms, or weekly if you prefer.

Pensioners may come in and receive a written estimate of what their dental work will cost. When this estimate is approved their work is started immediately and they make their first payment when they receive their additional funds from the State.
